HUNGER GAMES: Smallthorne Primary pupils learned about the digestive system in the human body when they visited a Burslem high school. At Haywood Academy, the year six youngsters were able to see inside the human body using sophisticated lifesize models. Smallthorne year 6 teacher Deb Sutherland said: "As part of their

topic, they have to learn about the systems of the human body and this visit has allowed us to use equipment not available to us at our school. The pupils have particularly enjoyed the practical interactive lessons on the digestive system." Pictured are Adam Clarke and Amelia Tweats, both aged 11. Picture: Neil Hulse
